DETAILED ACTION

Response to Arguments

Applicant's arguments with respect to claims 1-51 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 101

Claims 1-22 are rejected under 35 U.S.C. 101 because:

Claim(s) 1 is/are rejected under 35 U.S.C. 101 as not falling within one of the four statutory categories of invention. **Supreme Court precedent and recent Federal Circuit decision indicate that a statutory “process” under 35 U.S.C. 101** must (1) be tied to another statutory category (such as a particular apparatus), or (2) transform underlying subject matter (such as an article or material) to a different state or thing.

An example of a method claim that would not qualify as a statutory process would be a claim that recited purely mental steps. Thus, to qualify as a 101 statutory process, the claim should positively recite the other statutory class (the thing or product) to which it is tied, for example by identifying the apparatus that accomplishes the method steps, or positively recite the subject matter that is being transformed, for example by identifying the material that is being changed to a different state.

Note: the Examiner suggests amending at least one step in claim to positively recite the statutory item or device (mobile device, a repeater, access point, etc.) that performs the step in order to 'tie' the process to a particular statutory category.

Claim Rejections - 35 USC § 112

Claim 51 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

As to claim 51, the claimed cited "A machine readable medium" was not supported by the specification.

Allowable Subject Matter

Claims 23-50 are allowed:

If claim 1 is overcome 35 U.S.C 101, and would be allowable if rewritten with qualify as a 101 statutory. Also, claim 51 rewritten with

overcome 35 U.S.C. 112, first paragraph as addressed above. The application will be considered for allowance.
